W. J. ADAMS & CO. The Silver Skirt!

More Durable, More Elastic, More Graceful And will keep its Shape and retain it

Place better than any other Skirt. This new and beautiful style of Shirt (Patented March 7, 1865.) was awarded by the GREAT AMERICAN INSTITUTE FAIR, held in New York, Oct., 1865, a Silver Medal! The Highest Premium ever given for a Hoop Skirt. The Steel Springs are wound with a fine plated wire (in place of a cotton covering) which will not

wear off or become soiled, and the whole Skirt may be wasned without injury or fear of rusting, and will be as good as new. The Combination Silver Skirt!

This invention combines with the ordinary cotton Skirt the advantages of our Silver Skirt; the bottom hoops are the same as those used in the Silver Skirt, the covering of which cannot wear off, while the upper ones are covered with cotton. No lady, having once worn one of our Skirts, will be willing to wear any other, as the lower hoops of all other kinds are seen injured and soiled.

The best materials are used in their construction, and, from their durability and neatness they are destined to become

A FAVORITE SKIRT! Manufactured solely by the Silver Skirt and Wire Manufacturing Company, 30 & 32 Barclay Street,
